# About Hult Prize

The Hult Prize is the world's biggest engine for the launch of for-good, for-profit startups emerging from university with over 2500 staff and volunteers around the world. In nearly a decade, the movement has deployed more than \$50M of capital into the sector and mobilized more than one million young people to re-think the future of business as it continues to breed disruptive innovation on college and university campuses across 100+ countries.

Called the "Nobel Prize for students" by media outlets worldwide, the Hult Prize is offered in partnership with the United Nations. It is hosted and supported by Hult International Business School, and generously funded by Swedish entrepreneur Bertil Hult and his family. It is also the world's biggest studentcentered event and crowd-sourcing platform. Each year thousands of college and university students from 150+ countries participate, and since its inception, participants have represented 1,000+ institutions of higher education.

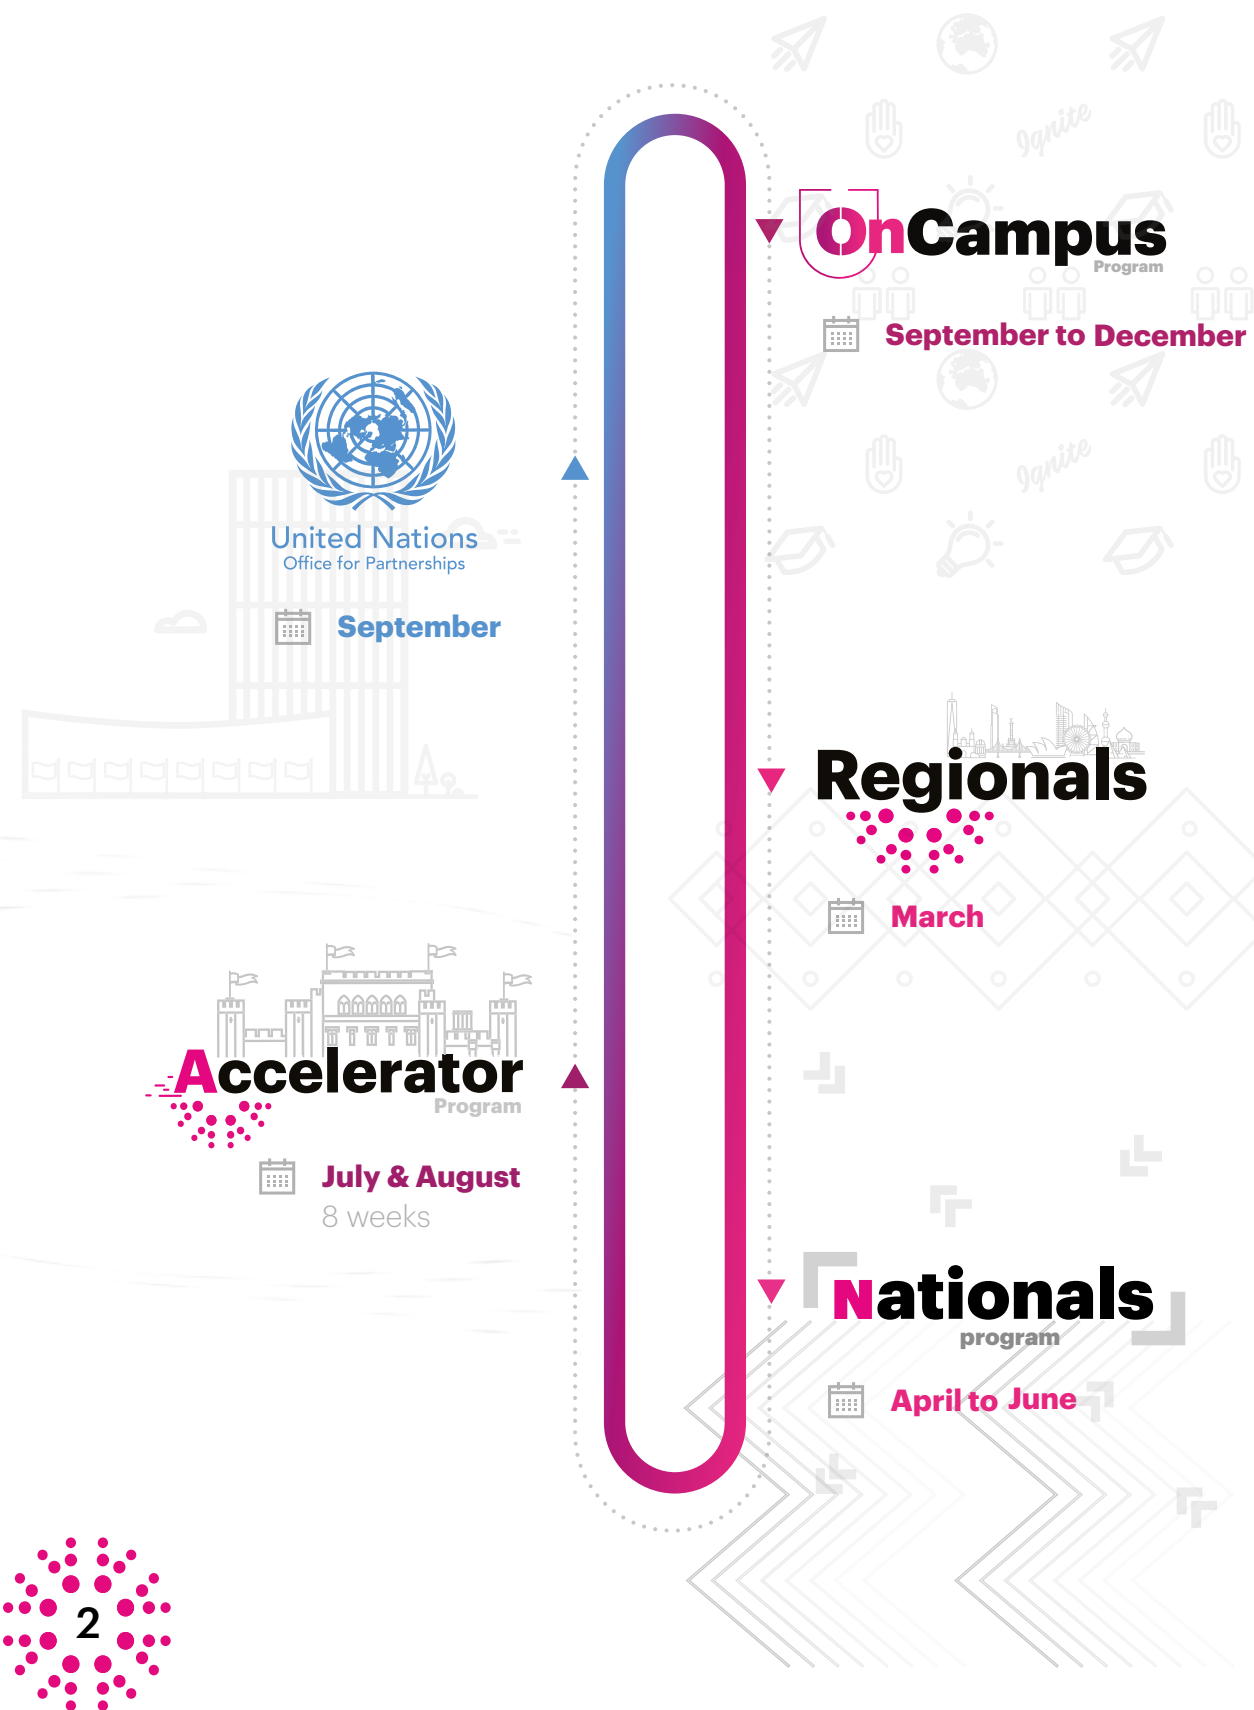

Open to university and college students on every continent, the Hult Prize has grown to become the world's largest student movement for social good.

# Competition Timeline

The following is the annual cycle of the Hult Prize:

# About Hult Prize On Campus Program

The Hult Prize On Campus Program **brings Hult Prize directly to universities around the world.** It allows student leaders to organize their own localized version of the Hult Prize, using a turn-key tool-kit and the support of dedicated staff at the Hult Prize Foundation.

The local program gives the university's winning team the chance to bypass the general application round, and fast-track into one of our Regional Finals.

Run entirely by volunteer student Campus Directors, the Hult Prize On Campus Program gives students a vital role to play in changing the trajectory of some of the world's toughest challenges, starting in their own communities and countries.

The events organized on campus provide teams with unparalleled opportunities and resources, as well as spreading awareness in their university of a pressing global issue.

Each year, we are seeing more advanced and better-prepared concepts emerging from universities worldwide, thanks to the hard work and support of the Campus Directors and the university ecosystem.

# Hult Prize in University of Lagos

University of Lagos attracts some of the brightest minds in the country. It is also important to note that several of her alumni members have gone on to build very successful businesses. It is our goal to groom the next generation of entrepreneurs who would not only make profit, but solve global issues as well.

**WE ARE PRACTICALLY MAKING HISTORY!**
